Top Priority for Ticket and Benefit Allocation							

Effective January 1, 2018, the IRS no longer considers priority athletic seating contributions, including those made by gifts of stock, to be tax deductible. Additionally, while an IRA charitable rollover gift can be made to Athletics, the IRS does not permit the donor to receive any Cougar Athletic Fund priority points or other privileges, such as priority for season tickets, in exchange for the gift. Donor Advised Fund distributions are subject to the same restrictions. As with any contribution, please consult your tax professional about the impact this may have on you.
